

Cool Science is a volunteer-based nonprofit dedicated to promoting a deeper understanding of the wonders of science through exposure, inspiration and engagement.

How cool is Cool Science?

"I liked doing the science by myself"
- 2nd Grader

"I wish Science Day was every day"
- 3rd Grader

(DAY OF SCIENCE)

"Knowledgeable science combined with dynamic presentation methods! Good job!" - Parent

(COOL SCIENCE CARNIVAL AT UCSS)

"This was a cool way to get us interested in science and crime investigations. I really felt like an investigator! Cool Science Rocks!" - 7th Grader

(GIRL SCOUT WORKSHOP)

"I loved your class and am jumping out of my skin in anticipation of being able to do the experiments with my kids!" - Parent

(SCIENCE / STEM NIGHT & PARENT TRAINING)

Thousands of young people enjoy our programs each year!

SUPPORT US!

- VOLUNTEER -

Do you want to share the wonders of science with kids? We have many rewarding opportunities for volunteers. A background in science or engineering helps, but isn't necessary, and the amount of time you offer is up to you. Here are a few options:

Science Presenter - Activity Leader - Curriculum Developer - Newsletter & Social Media Writer - Event Planning - Exhibit Design/Construction - Fundraising/Grant Writing - Website & Graphic Design - Photographer - Videographer

email us: volunteer@coolscience.org

- BE A SPONSOR -

Join the impressive list of businesses and organizations that have sponsored Cool Science - a 501(c)(3) nonprofit.

Thanks to these generous contributors:

William Stanley Foundation Brunni Foundation

- DONATE -

Help us reach even more young minds by making tax deductible donations at:

Cool Science PO Box 50015
Colorado Springs, CO 80949

Bringing scientific fun to Colorado students, parents and teachers since 2002!

We make science COOL!

WE MAKE SCIENCE VERY COOL!

COOL SCIENCE offers a wide variety of fun and engaging hands-on **STEAM** (SCIENCE, TECHNOLOGY, ENGINEERING, ART, MATH) Programs... primarily for students in grades K through 8.

We work with public and private schools, home school groups, libraries, museums, scouting and other organizations.

You can also find us at local, regional and state-wide fairs and festivals, and other public spaces and gatherings.

Methods...

- **Interactive Demonstration Shows**
- **Simple Hands-on Activities**
(tables or booths)
- **Hands-on Workshops and Laboratory Experiments**

Formats...

- **In-Person or Virtual**
- **Interactive Demonstration Shows**
(Classes or school assemblies.)
- **Day of Science**
(Shows and / or hands-on programs for one or more classes.)

- **Super Day of Science**
(Day of Science for the whole school!)
- **Family Science, STEM or STEAM Nights**
- **After-School Programs**
- **Teacher and Parent Training**
